This Memorandum of Understanding is done for the Clinical Training and Experience of the Nursing Students with the effect from 29/10/2022 to 29/10/2032 as per below terms & mentioned points.

This Memorandum of Understanding can be terminated by mutual consent or by either party with one-month prior notice.

1. Clinical training and experience of the students will be carried out in Students batches at the Hospital.
2. Proper prior planning will be done with the Hospital before sending every batch of Students for the clinical training and experience.
3. Clinical training & experience will be effectively supervised by the clinical instructors/Tutors of the College.
4. The overall responsibility regarding the students and their behavior will be on the clinical instructors and the tutors of the college.
5. All the staff and the students must follow the rules and regulations laid by the Hospital. The college students and the staff shall not have unlimited access to all the patients in the hospital except the designated teaching beds only.
6. The college students and the staff shall take every care to handle all Hospital equipment carefully and only under the direct supervision of the Hospital staff. Any mishandling leading to breakage, malfunction of the equipment shall attract a fine or full reimbursement of the price of the equipment.
7. The College staff and the students shall observe all the universal precautions for infection control and use the needed barrier technique/device/equipment. In case of any exposure to any form/mode of infection including a needle stick injury, the Hospital shall be liable to provide only the First Aid treatment. If any more treatment is required, the college has to pay the charges as per tariff.
8. Also, the Hospital shall not be held responsible if the College staff or students suffer any injury (mental or physical), exposure to infection and the loss of any valuable belongings of the College staff or the students in the Hospital premises. The hospital shall not be responsible for any compensation for any of the aforementioned eventualities.
9. The Hospital authority will have every right to inform and suggest necessary action if there is any sort of misbehavior from the students and the staff.
10. The College students and staff should always co-operate and support all the activities and programs conducted and organized by the hospital whenever & wherever needed by the hospital management.
11. The Hospital shall issue a 'No Objection Certificate' to the students only after the completion of the requisite clinical training and practical experience. The hospital reserves the right to withhold the NOC in case the student has not completed the required classes/training hours etc. as specified.

7.	Cat-7 Solid Waste.		10:00	Kg/M	
8.	Cat-8 Liquid Waste.		Ltr/D (KL/M)	The Liquid Waste shall be disinfection by chemical treatment & not discharge into the drainage system provided by local body OR Shall sent same to MPCB Authorized CBMWTSD Facility.	
9.	Cat-9 Incineration Ash.		—	Kg/M	CHWTSD Facility.
10.	Cat-10 Chemical waste.		—	Ltr/M	The Chemical Waste shall be disinfection by chemical treatment using at least 1% hypochlorite solution or any other equivalent chemicals reagent & not discharge into drains for liquids & secured land fill for solids OR Shall sent same to MPCB Authorized CBMWTSD Facility.

7. The liquid/solid waste generated from the treatment activity (from laboratory and washing, cleaning, housekeeping and disinfecting activities) shall be treated suitably by providing effluent treatment facility to conform the standards prescribed in Schedule V of said Rules and the Environment (Protection) Act, 1986.
8. (i) BMW shall be treated and disposed of in accordance with Schedule I; and in compliance with the standards prescribed in Schedule V of said Rules.
(ii) You shall setup requisite BMW treatment facilities like incinerator, autoclave & Microwave, shredder etc., at the disposal side in accordance with the BMW rules. You shall disposed of the duly treated BMW and incineration ash in secured land fill site at your own premises / at MSW secured land fill site of Municipal Council authorized by MPCB and duly earmarked for disposal of treated BMW / at common H.W. treatment &

9. (i) BMW shall not be mixed with other wastes or reused, recycled or sold in any form.
- (ii) BMW shall be segregated into containers / bags at the point of generation in accordance with Schedule-II prior to storage, treatment and disposal. The containers shall be labeled according to Schedule III.
- (iii) If a container containing BMW is to be transported from the premises where BMW is generated to any waste treatment facility outside the premises, the container shall, apart from the Label prescribed in Schedule III, also carry information prescribed in Schedule IV and shall be transported by authorized transporter only.
- (iv) Notwithstanding anything contained in the Motor Vehicles Act, 1988 or rules there under, BMW shall be transported only in such vehicle as may be authorized for the purpose by the competent authority as specified by the Government.
- (v) No untreated BMW shall be kept stored beyond a period of 48 hours.

10. Standards for waste autoclaving:

The autoclave should be dedicated for the purposes of disinfecting and treating bio- medical waste.

- (I) When operating a gravity flow autoclave, medical waste shall be subjected to:
- (i) a temperature of not less than 121 C° and pressure of 15 pounds per Square inch for an autoclave residence time of not less than 60 minutes; or
 - (ii) a temperature of not less than 135 C° and a pressure of 31 psi for an autoclave residence time of not less than 45 minutes; or
 - (iii) a temperature of not less than 149 C° and a pressure of 52 psi for an autoclave residence time of not less than 30 minutes.
- (II) When operating a vacuum autoclave, medical waste shall be subjected to a minimum of one pre-vacuum pulse to purge the autoclave of all air. The waste shall be subjected to the following:
- (i) a temperature of not less than 121 C° and a pressure of 15 psi for an autoclave residence time of not less than 45 minutes; or
 - (ii) a temperature of not less than 135 C° and a pressure of 31 psi for an autoclave residence time of not less than 30 minutes; or
- (III) Medical waste shall not be considered properly treated unless the time, temperature and pressure indicators indicate that the required time, temperature and pressure were reached during the autoclave process. If for any reasons, time temperature or pressure indicates that the required temperature, pressure or residence time was not reached, the entire load of medical waste must be autoclaved again until the proper temperature, pressure and residence time were achieved.
- (IV) Recording of operational parameters, - Each autoclave shall have graphic or computer recording devices which will automatically and continuously monitor

and record dates, time of day, load identification number and operating parameters throughout the entire length of the autoclave cycle.

- (V) **Validation test: Spore testing** - The autoclave should completely and consistently kill the approved biological indicator at the maximum design capacity of each autoclave unit. Biological indicator for autoclave shall be *Bacillus stearothermophilus* spores using vials or spore strips, with at least 1×10^6 spores per milliliter. Under no circumstances will an autoclave have minimum operating parameters less than a residence time of 30 minutes, regardless of temperature and pressure, a temperature less than $121\text{ }^\circ\text{C}$ or a pressure, less than 15 psi.
- Chemical Test** - A chemical indicator strip/tape that changes color when a certain temperature is reached can be used to verify that a specific temperature has been achieved. It may be necessary to use more than one strip over the waste package at different location to ensure that the inner content of the package has been adequately autoclaved.

11. Every 'Authorized Person' shall submit an Annual Report to the prescribed authority in Form-II by 31st January every year including information about the categories and quantities of BMW handled during the preceding year.

12. (i) Every 'Authorized Person' shall maintain records related to the generation, collection, reception, storage, transportation, treatment, disposal and/or any form of handling of BMW in accordance with these Rules and any guidelines issued.
- (ii) All records shall be subject to inspection and verification by the prescribed authority at any time.
13. When any accident occurs at any institution or facility or any other site where BMW is handled or during transportation of such waste, the authorized person shall report the accident in Form III to the prescribed authority forthwith.
14. The Occupier will obey all the lawful instructions issued by the Board Officers from time to time.
15. This authorisation should not be construed as exemption from obtaining necessary NOC/permission from any other Government agencies.
16. This Board reserves the right to review, amend, suspend, revoke etc. this consent/authorisation and the same shall be binding on the HCE.
